The Asian Foundation was incorporated in 1988, as a non-religious, non-political and non-profit organisation to promote socioeconomic development in Kenya.

The Foundation is committed to promoting peace, harmony and national development in Kenya, and fosters better understanding of the cultures and values among all the diverse communities of our nation.

In its 30 years of existence, the Asian Foundation has served tirelessly to transform the lives of large numbers of Kenyans in the fields of basic and vocational education, medical care and socioeconomic development.

As it moves into its fourth decade, the organisational and administrative structures of Asian Foundation have grown and evolved to incorporate three Advisories comprising its Council of Elders, Leaders Forum and Professionals Group, and Principal Activities as below.

Benefits of Registration and Membership:

- opportunities to serve the nation through the Principal Activities of Asian Foundation
- networking and linkages with professionals, experts and business-to-business
- collaboration with other organisations with similar and/or related objectives, activities and projects
- platform for exchange of views on socioeconomic, civic and cultural issues
- individual, one-to-one advisory in all key areas of activity
- foster and strengthen unity, visibility, leverage and mutually beneficial databases within communities and organisations

As a Member of Asian Foundation, kindly indicate which of these areas of activity you would be willing to assist and participate in:

- | | |
|---|--------------------------|
| 1 Education, Training and Development | <input type="checkbox"/> |
